

Gwinnett Medical Center-Duluth Imaging

Gwinnett Medical Center-Duluth's imaging centers are professionally staffed with board-certified radiologists along with nurses and technologists with advanced specialty registries.

We are proud to offer high-quality, state-of-the-art imaging equipment from industry leaders – such as Siemens, GE, Lorad and Hologic. GMC-Duluth Imaging provides patients with safe, reliable care that goes above and beyond what is available at most imaging centers.

Moreover, our all-digital facilities provides improved image quality at lower radiation levels. Images are instantly available to our Radiologists and referring physicians which helps provide shorter patient visits and timely interpretations.

Our facilities are accredited by the American College of Radiology. So when you come to a GMC-Duluth imaging facility, rest assured that you or your family member will receive quality care and expert interpretations.

Advanced Digital Imaging Technology

Digital imaging is similar to taking a photo with a digital camera. Specially designed digital detectors produce an image that can be immediately displayed on a high-resolution computer monitor. The image is then stored and transmitted electronically to radiologists for viewing at all locations.

Digital imaging has many advantages, including improved image quality and instant access. In addition, digital imaging provides radiologists the ability to manipulate images for improved accuracy of interpretation. All images are digitally transferred between locations via our Picture Archiving and Communication System (PACS). So no matter which location you choose, you are sure to receive the benefit of the latest technology and expert interpretation. Your physician will also have instant access to your results either through PACS or a compact disc (CD).

Our Services

We offer a full range of screening, diagnostic and interventional procedures such as:

- Bone Density
- Breast MRI
- CT (CAT) Scan
- Diagnostic X-Ray
- Mammography
- MRI
- Nuclear Medicine
- SPECT/CT
- Ultrasound

Special Procedures:

- Arthrography
- Fluoroscopy
- Hysterosalpingogram
- Image-Guided Procedures
- Kyphoplasty/Vertebroplasty
- Laser Vein Treatment
- Myelography
- Uterine Fibroid Embolization

Exceptional, Board-Certified Radiologists

Our radiologists, members of North Metropolitan Radiology Associations, LLP (NMRA), bring decades of training and clinical experience to Gwinnett Medical Center's imaging facilities. All NMRA radiologists are board-certified with sub-specialty fellowship training. Such expertise allows for more precise reading and interpretation of radiological studies. Furthermore, several of our radiologists speak multiple languages, including Gujarati, Korean, Vietnamese and German.

Billing

Gwinnett Medical Center-Duluth accepts most major health insurance plans. In addition, we offer prompt-pay discounts for patients who are not insured or choose not to use insurance as their form of payment. To contact Patient Accounts, please email ghsbilling@gwinnettmedicalcenter.org or call 678-312-5600.

Financial counselors are available to provide price estimates to all patients by email at pricequote@gwinnettmedicalcenter.org or call 678-312-4212. Patients will receive a separate bill from NMRA for services rendered by their radiologists. NMRA is contracted with all major insurance providers.
